

# HIGH FEED

NPK 10-30-0+

9% Ca + 3.5% MgO + 1% B + TE

# NPK

## Chemical Composition (w/v):

- Total Nitrogen (N): 10%
- Potassium ( $K_2O$ ): 30%
- Calcium (Ca): 9%
- Magnesium (MgO): 3.5%
- Boron (B): 1%

## HIGH FEED Advantages:

- A compound fertilizer containing nitrogen, potassium, calcium, magnesium, and boron, making it suitable for any stage of plant growth.
- High-quality fertilizer enriched with essential macro and micro elements that are critical for plant development, providing strength and promoting healthy vegetative growth.
- Suitable for use in all types of agricultural soils and compatible with various irrigation and fertilization systems.
- A high-quality soluble fertilizer designed to stimulate fruit coloring, increase fruit size, and improve overall production quality for all field and greenhouse crops.
- Strengthens plant tissues and helps prevent fruit cracking.
- Enhances nutrient uptake efficiency and improves plant tolerance to stress.

**Suitable for all irrigation systems and foliar spraying.**

**Packaging: 1 – 5 – 10 – 20 kg**
