

Hebron

20-10-60 +TE

High-Potassium Compound Fertilizer

Chemical Composition (w/v):

Nitrogen (N):	20%	Water soluble
Phosphorus (P ₂ O ₅):	10%	Water soluble
Potassium (K ₂ O):	60%	Water soluble

Hebron High-Potassium Formula (+K):

A potassium-rich formulation specially designed for the fruit filling and ripening stages. It also contains balanced levels of nitrogen and phosphorus to support optimal plant nutrition.

Benefits:

- Contributes to increasing fruit size and weight and improves overall market quality.
- Enhances fruit coloration and increases total soluble solids (TSS).
- Improves fruit firmness and extends storage and transportation life.
- Increases plant tolerance to environmental stresses such as heat and salinity.
- Suitable for use before harvest and during advanced fruit sizing stages.
- Enriched with micronutrients (TE) to ensure complete nutritional balance.

Suitable for use in all irrigation systems and for foliar application.

Packaging:

1 kg – 5 kg – 10 kg – 20 kg
