BORON 10%

Chemical Composition (w/v):

Boron (B): 10%

Features:

- Boron fertilizer with a concentration of 10 is designed to provide balanced and stable plant nutrition.
- Primarily used as a preventative treatment to maintain boron levels within optimal limits.
- Contributes to improved flower set and increased vegetative growth vigor.
- Helps reduce early flower and fruit drop.
- This formulation is safe for repeated use and suitable for crops sensitive to excess boron.
- It can be used in foliar spraying or fertilization programs according to crop recommendations, making it an ideal choice for periodic and regular use.

Packaging:

250 ml, 500 ml, 1 L, 5 L, 10 L, 20 L
