

# POWER VIVA

## TE MIX PLUS

Chelated Micronutrient Formula (EDTA)

Iron (Fe) EDTA: 6% + Manganese (Mn) EDTA: 4%

Zinc (Zn) EDTA: 3.8% + Copper (Cu) EDTA: 0.5%

Boron (B): 1%

## Chemical Composition (w/w):

Total Chelated Iron (Fe-EDTA)	6 %
Total Chelated Manganese (Mn-EDTA)	4 %
Total Chelated Zinc (Zn-EDTA)	3.8 %
Total Chelated Copper (Cu-EDTA)	0.5 %
Total Boric Acid (B)	1 %

## Features & Benefits:

- Rapid absorption of micronutrients; all EDTA-chelated elements are easily absorbed through plant leaves, ensuring fast correction of nutrient deficiencies.
- Effectively treats micronutrient deficiency symptoms such as leaf yellowing, stunted growth, weak flowering, and fruit drop.
- Stimulates leaf and root growth, promotes strong vegetative development, and enhances the plant's nutrient uptake capacity.
- Increases photosynthesis efficiency; iron and manganese are essential for chlorophyll formation, improving plant vigor and productivity.
- Enhances plant tolerance to environmental stresses such as heat, drought, salinity, and cold conditions.
- Improves flowering and fruit set; micronutrients support flower formation, increase fruit set percentage, and improve fruit size and quality.
- Improves yield quality by increasing sugar and vitamin content and enhancing natural fruit color and flavor.
- Acts as a plant growth enhancer, supporting cellular activity and overall physiological performance.
- Suitable for all crops, including fruit trees, vegetables, field crops, ornamental plants, and citrus.
- Safe for foliar application when used according to recommended programs; does not cause leaf burn.

## Packaging:

1 kg – 10 kg – 25 kg
